Dear Phones USA,

I wanted to take the time to write you about Andrew who repaired our household phone lines yesterday.

We are currently in the middle of a complete remodel here at our condo in Venice. Andrew was able to diagnose and fix a vexing short in our household phone loop that the contractors were unable to correct.

He was prompt, courteous and fully competent. I have used PhonesUSA several times in the last year to support my clients' offices; Andrew was the technician you sent and he evoked compliments from them all.

I don't usually take the time to actually write a letter, but I wanted to go on record and let you know how happy I am with his service.

I hope you reward him greatly for his efforts and hope he will always be the technician you send on my service requests.

Best Regards,

Mike Deissler,

President, Deissler Digital, Inc.
